## Introduction

---

In this the 2015 and 39<sup>th</sup> edition of 'Europe's 15,000 Largest Companies' the data has been updated through local research or by the companies themselves, whom we wish to thank for their cooperation. It is our hope to provide valuable financial and marketing data on the major public and private companies in Europe.

## How to use

---

The basis of this publication is a list of the top companies in Europe ranked by turnover. The information is organised on a country by country basis. In addition there are ranking lists for the 500 largest companies by turnover, profits and employees and for the 100 largest companies in major industry categories.

For each company we provide the following information:

**Rank** — indicates comparative size within the table. Where available change from last year's position is also provided.

**Country Codes** — appear after each country in the table of contents.

**Industry Activity Code** — a full list of SIC codes is given on pages *xi-xix*.

The company main industry sector, industry activity codes and financial data are given within the rankings.

**Alphabetical Index** — The alphabetical index includes country codes and ranking of each company thereby making it possible to find the company easily in the appropriate country section. The index contains contact details including: address, city with postal code, and telephone numbers. Also included in the index is the contact name as provided of the company's named executive.

**Trade Index** — The Trade Index is organised by Standard Industrial Classification (SIC) using the first two numbers of the code which identify the broad industrial sector. Companies are then organised by full SIC and alphabetically within the sections.
