# Introduction

---

This Dun & Bradstreet Business Register, one in a series of 35 Dun & Bradstreet Business Registers, is designed to meet the needs of all those people looking for reliable information about local businesses. The listing includes businesses with more than five employees or an annual sales turnover in excess of £250,000 and their branches. The data has a host of business uses, including:

- Identification of sales prospects
- Membership drives for business organisations
- Job seeking
- Finding local distributors
- Market research
- Identification of vendors of local products
- Charitable appeals
- Finding local suppliers
- Local sponsorship
- Assignment of sales territories
- Making appointments
- Compilation of mailing lists
- Executive placement
- Investigation of prospective customers

You will find within this directory further information about the products and services available from Dun & Bradstreet, which can help at every stage of the business cycle. For more help with sales and marketing activities, our range of Direct Marketing services will also be of interest. Once the sales process is underway, our Trade Credit services will be of help to ascertain whether a potential customer is creditworthy.

# The Dun & Bradstreet 'Risk Indicator' explained

---

Understanding and minimising risk is fundamental to your organisation. Staying informed of any changes is the only way to grow your customer portfolio without increasing your risk exposure. Knowing a customer's or prospect's long-term commercial viability is critical to your organisation - It's a commercial imperative.

All Dun & Bradstreet data presented to our customers has undertaken the exhaustive DUNSRight™ quality process. In this process we collect, aggregate, verify and enhance data from thousands of sources daily so our customers can use our information and assessments in the confidence they are making profitable decisions for their organisations. Our Predictive Indicators use statistical analysis and expert rules to indicate how an organisation is likely to perform in the future and make the information actionable.

Dun & Bradstreet's Risk Indicators predict the likelihood that an organisation will obtain legal relief from its creditors or cease operations over the next 12 month period. They also look for events signalling the onset of failure, such as a meeting of creditors, administrator appointed, bankruptcy, receiver appointed, and petition for winding-up. The Risk Indicator is available as 1 to 4 range, whereby 1 represents organisations with the lowest probability of failure and 4 the highest. A dash (-) Indicator may also be generated and it is important to note this means that Dun & Bradstreet have been unable to collect or verify certain key data elements (including some that confirm that an organisation exists or is still trading), or the organisation is subject to an exceptional event.

Dun & Bradstreet Risk Indicators are just one part of the Dun & Bradstreet Rating and Risk Management Services. Dun & Bradstreet helps our customers identify organisations that are likely to fail or pay late, or will want to purchase their goods/services. Dun & Bradstreet Risk Management Solutions identify prospects, customers or suppliers that are likely to fail owing money or who will pay invoices slowly:

- Dun & Bradstreet Failure Score – Probability that an organisation will fail in the next 12 months with outstanding creditors.
- Dun & Bradstreet Delinquency Score – Probability that an organisation will pay its suppliers very slowly or not at all.

Dun & Bradstreet's Scores and Ratings are dynamic, meaning that they are recalculated every time we collect a new piece of information about an organisation, or when information changes. Please note; the Ratings for organisations shown here are from 1st April 2019 and are likely to change. To obtain the most up to date Dun & Bradstreet insight which will provide you with the level of risk associated with an organisation please call 0800 001234.

For any more information about Dun & Bradstreet's Scores and Ratings and how they are assigned please call our UK customer service team on 0870 243 2344. Any queries relating to entries appearing in the book should be addressed to: [customerhelp@dnb.com](mailto:customerhelp@dnb.com).

## 2. BUSINESSES BY INDUSTRY

For indexing purposes this directory uses the US SIC Code system. US Standard Industrial Classification Codes divide all economic activity into ten major sectors. These business segments are represented by the first two digits of the SIC Codes:

Agriculture, Forestry & Fishing	01-09	Wholesale	50-51
Mining	10-14	Retail Trade	52-59
Construction	15-17	Finance, Insurance & Real Estate	60-67
Manufacturing	20-39	Business Services	70-89
Transportation, Communication & Public Utilities	40-49	Social Services & Public Administration	91-97

Each line of business is categorised within one of these ten divisions and assigned a code. The first two digits of this code describe the general line of business. The third and fourth digits pinpoint a specific business activity, e.g.

22	Manufacturing - Textile mill products
227	Manufacturing - Floor coverings
2272	Manufacturing - Tufted carpets, rugs

Dun & Bradstreet BUSINESS REGISTERS and other Dun & Bradstreet Reference titles are cross referenced by US SIC code.

To find the SIC Code relating to the industry of interest see page xix.

If you need an explanation of a particular SIC Code, simply turn to the numerical index on page xxvii.

Residential electric lighting fixtures	3645
Resistors, for electronic applications	3676
Retail bakeries, baking and selling	5462
Retail bakeries, selling only	5463

3576	Scales and balances, except laboratory
3579	Office machines n.e.c.
3581	Automatic merchandising machines
3582	Commercial laundry, dry cleaning pressing machines
